Chemistry, Cooking, electricity, magnetics, temperatures, gravity with many hands-on projects to hypothesize and prove why something happens a certain way & the variables that can change an outcome!

We will be doing many optional field trips. There will be a calendar sent home in advance with all the activities, the costs and what is required for that trip. **These are optional: we do many fun things at the school for children who do not go on these excursions.** You will circle what activities you would like your child to do, send the calendar back with payment for those trips attached to the calendar. The first calendar will come out the first week of May for June's activities.

The staff in charge on the field trip will call the center when they are on their way back.
10. If you are running late and your child is signed up for the field trip, we cannot keep the group waiting. We will leave directions for you to drop off at the activity location. Please help us out, if we are late leaving, we will be late getting back or we will lose our reservation completely.
